

Camp Runoia
1977

The 1977 Log cannot be found. It was a memorable summer, as each Runoia summer is memorable, but 1977 was particularly special because we celebrated our beloved Johnny's Fiftieth Summer in camp. The log was dedicated to her. Therefore, this attempt to recapture a time in Runoia's history is also dedicated to Marian R. Johnson.

Skit presented on opening night:

*Twas the night before opening and all through the camp
Spirits were soaring though the weather was damp
The counselors were ready and they turned out their lights
But good golly, Miss Molly, what to do Saturday night?

"We need an EP," Betty said quite upset,

"And it's gotta be good, these kids are the best."

"Oh sigh," said the counselors, "we all want to sleep."

"But duty is duty and duty we'll keep."

What to do? Total silence had fallen over the room

And suddenly a voice piped up from the gloom.

"I know," cried out Andrea and BJ together,

"We'll take them to the lake and teach them to feather."

"That's wrong," cried out Boop and Jack made a face

"We're gonna teach them all to sail in this place."

Jenny and Sara nodded their heads. "It's settled now,

We can all go to bed."

But out cried a voice and in clarion tones

Ellen was making her presence well know.

"Take them sailing? Oh really, you've got to be crazy

All sailors are is incredibly lazy."

"Meg and I will take them camping on a trip they'll remember

Long after they go to school in September."

"Goodnight all," they said, but before they could leave

A tennis ball whizzed through the rafters with ease.

Connie jumped in, all decked in her whites

"Tennis anyone? It's better at night."

"I insist," she said in an accent midwest

"That EP should be nothing less than the best."

"Oh yeah?" said Alison, and pointing a gun,

Said, "Riflery is really so much more fun -

They'll follow me from the courts to the shed

And I'll make sure they're ready for bed."

And just as we thought we could all close our eyes

Up popped a loud but pint-sized surprise.

"Scottie's my name and swimming's my game -
Right! Yah! The water's cold but I'm not to blame.
We'll teach them to swim before they all snooze
We better get to it, there's no time to lose."
"Oh, forget it," cried Liz and Grace with disgust.
"We'll take them to crafts, to create is a must."
"Weaving, batik and enamels we'll teach 'em
That's really the only way to reach 'em."
But before the words had barely reached our ears
David, Richard, Eric came in with a cheer.
"Let's be practical," they said in voices so stern.
"There's trunks to be moved and garbage to burn."
"The hand brake is broken on the new green truck
We've tried to fix it, but haven't had any luck.
Tinkering with cars is a wonderful game
We're sure the campers will all feel the same."
Louise interrupted, "What's the use of a car?
With a horse you can practically get just as far.
Jack Carlton and I have discovered the solution
And besides they don't even cause pollution."
Trudy was skeptical, she sighed in dismay,
"Really, you guys, this dude knows the way.
Archery's the thing that will capture their hearts
Besides, I spent time on that archery chart."
Johnny had quietly sat in the back
She knew the solution but waited to crack
(The silence.)
When the silence was close to being a snore
"All you've suggested is simply a bore.
Compared to what I have to offer this year
Howard Johnson's. Twelve flavors. The Cits are all here!"
Jack and Diane had even more inspiration
"Let's let them take care of the younger generation!"
Then Becky walked in, "But what will I do?
My job will disappear, my plans will fall through.

But really, I wouldn't mind a vacation
Pre-camp's been an incredibly taxing sensation.
"Perhaps," said a voice, we could all start a farm
We've got pigs and chickens and plenty of barns.
Four dogs, four cats will complete our yard
They can take care of them, it won't be hard.
"But actually," Colette so meekly suggested
"After their nerves with this poem you have tested
They'll have to see me, there's no doubt about that.
"I'll make them all better." and then down she sat.
But we spent so long thinking and too long deciding
So in all of you we're quietly confiding.
We didn't do anything, we're embarrassed and red.
So please now, why don't you just go to bed!

JMG

By the shores of Mooselookmeguntic
By the testing camp at Bemis
Came the nine woodsmen Runoias
Those JMG Runoias.

They have learned their mighty skills
How to swing an ax and cook
Map and compass, and canoeing
Out in calm or wind canoeing.

They know how to make their shelters
Their fireplaces and wood piles
How to build a wet day fire
Know each tree both pine and broad-leafed.

Each has learned some tasty menus
And a list of trip equipment
First aid for any problem
Fishing laws and fire fighting.

Their many voices raised in song
As they bake and boil and fry
Will cheer each tester's morning
When they feast with those Runoias.

Nandy, Karen, Pam and Susan
Joined by Meg will build a campsite
Out in forest green and tree-filled
With a floor pine-needle covered.

Cyndi, Harriet, Laura, Linda
Their home nearby will settle
How quickly pass those four days
While they learn and work together.

In the land of moose and trout fish
By the shining big lake water
They will show their many skills
As in harmony they work.

We'll be anxious then to have them
Come back to our Runoia
To hear their many stories
And to share their memories, too
Of pines and glimmering water
Campsites nestled on the lakeshore
New-found friends, songs learned together,
Now return to Camp Runoia.

To The Cits

You're off for the St. Croix
It's a very special trip
Watch the rocks, hear that sound
As your paddles dip.

On to the place that's called Loon Bay
Now who is buried there?
Watch Canoose and Dog Falls
Left, or right...oh, where?

Little Falls is quite a spot
I hope you'll have some fun
Sleep well beside them when at night
All of your work is done.

To the campsite that's called Spednic
Be sure to give my best
That's where our friend Orange Bird was born
'Tis there you'll find his nest.

Through the flowage, push ahead
To Princeton you will go
Under the bridge and onto the lake
To that island we all know.

Say hi to Chet and Fred
My favorite spot of all
Sit on the rocks and watch the sun
As it begins to fall.

Then off to Chopping Landing
To meet the truck and Joe
We're anxious to hear all your tales
So hurry home, you know.
